- Poplar – Okanese #2 Pot 24”+ \$7.50
- Poplar – Prairie Sky #2 Pot 24”+ \$7.50

## **IMPORTANT NOTES:**

1. **FOR THE 2017 DIG DATES** - Your order is custom dug when trees are dormant! Place your order early since all anticipated supplies for wire baskets, burlap, pots, etc. arrive in our yard early April. Digging typically begins mid-April. We stop digging after

new growth begins. If you miss the cut-off in May, we resume digging Sept 1 until mid-October. We no longer dig excess quantities due to high maintenance costs (use of trucks/water tankers/labour).

2. **SCOTS PINE** trees should have the bottom 3 feet of branches removed by the customer because of crowded growing conditions. As the tree matures and gains more height, the bottom becomes of minor significance.
3. **WHITE BIRCH** – Consider this one species to be **PARK GRADE** due to the stem not perfectly straight. Some will have crooks in them however this visual aspect will not impact the tree, thus the down grade.
4. **COLORADO SPRUCE** is not native to Saskatchewan and will experience winter burn some years resulting in needle loss; however it will recover with new growth in the spring. This species is not intended to become a front-line shelter belt, other species are far better suited for that purpose. Plant in the city or acreage yard where some protection is available.
5. **MEYERS SPRUCE** is a very special tree which becomes blue after five feet in height. The seed source comes from Korea and is from a region of Zone 3b. This species must be place in a protected area away from front line wind otherwise it may experience winter burn resulting in needle loss; however it will recover with new growth in the spring.
6. **CUTTINGS** require soaking in water for 72 hours prior to planting. Plant with two buds above ground. Water these ASAP and monitor with a moisture meter OFTEN due to the critical establishment process of both growing roots and vertical growth.
7. **SEEDLINGS – BARE ROOT** seedlings are dug early and kept moist and in the dark until picked up. For transport purposes you will require a tarp so that product may be laid down and covered with damp sawdust to keep from drying conditions. Plant ASAP and water often; use a moisture meter.

## **FYI:**

- ✓ This commercial nursery is not subsidized
- ✓ There are three creeks which flow into our properties and exit as two. They have been protected and expanded by us with proof of visually having seen eagles, hawks, owls, cranes, bitterns, ruddy duck, a lot of ducks, insects, moose, elk, bear, coyote, wolf, minnows, deer, beaver, muskrat, otter, mink, weasel, porcupine, grouse, and so many grasses and sedges, rushes... Hunting takes place here with a lens. If you plant enough wildlife shows up!
- ✓ We have in excess of 300 acres planted in trees and have run out of land to plant into for another year, therefore we are depleting our beds of certain larger sizes for 2017 only
- ✓ We ship from the Winnipeg area to Whitehorse by tractor trailer

## **SUGGESTION:**

Download the following from our site – bottom of home page:

- 1) The 1-2-3 of DIY (*do it yourself*)
- 2) Catalogue with pricing (*save to your desktop & read*)
- 3) D.I.Y. Planting & Care (*read three times*)
- 4) Shipping Calculator (*measure twice, load once*)
- 5) Characteristics of Trees (*print/highlight choices*)
- 6) Site Assessment Questionnaire (*print/complete*)
- 6) Services Offered (*determine DIY or call us*)
- 7) Order Forms (*print/complete your shopping list*)
- 8) Map (*print map & arrive prepared*)
- 9) Consultation Request (*assisting you with planning*)

## **CONSULTATION SERVICES - \$80.00/HOUR**

- **DESIGN IN HOUSE OR ON-SITE VISIT** - Landscape Design & Planning: Includes all verbal discussions, suggestions, recommendations, planning and sketches in person or by telephone. Fees apply when a customer requests plans and recommended plant

material selection and location placement. Travel time charges apply for on-site visits.

- **ESTIMATES** - Take the preliminary step of informing yourself. Begin by outlining objectives until you have more of a plan in place. Complete your own estimate by visiting our show room/web-site's home page and follow "The 1-2-3's of DIY". This procedure of implementing your goals will make for a positive result. If you still require assistance and seek our expertise other than ordering product, submit the completed forms: "#7 Site Assessment" & "#9 Consultation Request" to receive a written estimate. You can contact us either by email or by phone; our Consultation Fee applies for this.
- **PROJECT MANAGEMENT** - Let one of our experienced staff members come out and inspect your site and guide you through all the steps.

## **TERMS:**

- Hours of Operation: Monday to Saturday 9 to 5 (Sunday by appointment)
- This is a working nursery and some/all staff may be working in plantations. Your pickup must be scheduled! See APPOINTMENTS at end of this list.
- NOTE: you may be required to wait until early September to pick-up stock due to various reasons which may prevent digging such as weather conditions, late orders, etc. Digging resumes September 1<sup>st</sup>.
- GOOD IDEA: order before April 30 to ensure a reasonable chance of receiving field dug trees this spring
- Other products available; view by downloading catalogue
- Deposit taken at time of order, No Holds/Reservations Accepted
- All product height measured from ground level to the tip
- Wire Basket Tree heights are up to and including 6 to 15 ft. These weigh either 375 - 500 - 1,100 - 1,600 lbs. See our "Shipping Calculator" on the downloadable catalogue on-line. We use loaders to move the trees and this type of pickup must be pre-scheduled.

- Cash & Carry (*Product must leave at time of sale*)
- No Guarantee – (*read our care instructions posted on [www.treesrus.ca](http://www.treesrus.ca)*)
- No Refund/Returns
- No other discounts will apply to this current sale
- Time Sensitive – sale will expire on May 8, 2016
- **APPOINTMENT REQUIRED FOR PICKUP – CALL EARLIER IN THE WEEK PRIOR TO ARRIVING**
  - Show up with a clean truck/trailer free of grime, straw or slip tanks. Bring a sheet of plywood to extend the bed & numerous straps/bungee cords/tape measure and several sheets/quilts/tarps to cover live product from drying.
  - **DELIVERY – ONLY AVAILABLE FOR LARGER ORDERS OF WIRE BASKETS AND POTS (#20 & #25).** We use several trailers with up to 30+ foot decks with a hauling capacity of 17,000+ pounds. You would be provided 60 minutes of time and are required to have suitable equipment to unload the trucks and trailers at the delivery location.

The Christmas side of the business has been presented to you for considerations in the event you have an interest in generating funds for your business or club.

The proceeds from both wreaths and Christmas trees have its rewards.

Thank you for looking through our web site and perhaps we'll have the opportunity to see you on site here.

Enjoy your planning – we're here for you!
